To Treaty Still in Doubt

New York, Oct. 29 .- (Special.) -- Henry

New York, Oct. 29.—(Special.)—Henry Clews in his weekly letter says:

"The approach of ratification of the treaty with Germany has been hailed during the past week in practically all countries as the most important financial and commercial event for a good while past. That such formal ratification will take place at an early date, possibly Oct. 30, is the current forecast in some quarters. The adhesion of the United States to the treaty is still in doubt, and the prediction of some political leaders that we shall so modify the treaty by reservations as to eliminate much of its value has undoubtedly caused anxiety. Should we practically precipitate ourselves into a situation in which we had no definite connectious with foreign countries, and could not share in the benefits obtained under the formal agreement with Germany, our trade, and finance would undentedly.

formal agreement with Germany, our trade and finance would undoubtedly suffer seriously in its foreign aspects. From this danger it will be the first

luty of public men to protect the na

From this danger it will be the first duty of public men to protect the nation.

"The labor and trade situation has for some time past been curiously mixed. The gradual collapse of the steel strike and the strong hand shown by the United States government in controlling the port strike at New York; but the most encouraging element in the case has been the circumstance that public opinion, when enlightened upon the real motives of "red" agitators who are behind the disturbances. has turned against them, Industrially the reports from all over the country are encouragain, reflecting, as they do, good demand for goods and a great ability to purchase and pay for them. An abundance of means in the hands of the public throughout the country has resulted in a steady investment demand for the more solid kinds of securities as well as a tendency on the part of the public generally to purchase and carry stocks of the sounder varieties.

"As against this investment strength, the speculative situation has been perturbed and dangerous. During the latter part of the week there was a sharp collapse among some of the favorite shares, including oils and a variety of industrial shares, which has been advanced to levels which left them in an evidently "topheavy" condition. With call money in relatively scant supply and likely to exhibit firmer rates a number of stocks which were in a technically weak position should be lookes upon with great caution and can be purchased only when the buyer is in position amply to protect himself."

# The meribers of the local chapter. Twickenham Town, Daughters of the American Revolution, met with the regent, Mrs. Winston Fearn Garth, Vesterday aftermoon at her borne.

Luxemburg, Oct. 29.—Grand Duchess Charlotte of Luxemburg and Prince Felix of Bourne-Harma will be married here Nov. 6. regent, Mrs. Winston Fearn Garth, yesterday afternoon at her home "Piedmont," in a called meeting to perfect plans for the entertaining of the state conference which meets in Huntsville on Dec. 4 this year. The regent appointed all her committees including entertainment, publicity, reception, badges, etc. The Kiwanians and the Rotarians kindly offered their services in helping to make the conference one of a memorable occasion, which was promptly accepted by the Daughters.

Prince Felix was born at Schwarzau Sept. 28, 1892. Unlike his brothers, Sixtus and Kavier, who served in the Belgian army, he entered the Austrian service, although he declared at the beginning of hostilities he would refuse to fight against the French. Owing to Prince Felix's war service there was some hostility to his marriage to Grand Duchess Charlotte, but the latter declared it was a love match and that she would wed no other. The people of Luxemburg subsequently acquiesced in this view.

Don't Let Chills and Colds Depress You—Pepsinol Builds Strength

WARNINGS issued by leading physicians and health authorities that another epidemic of Influenza is threatening the American people is in the in-terest of the conservation of life. The first epidemic, in which more than 500,000 lost their lives, struck the nation unprepared, thinking only of the war and its outcome. Now people have time to fare. They have time to build up their strength, as the physicians advise. They have time to decide what is best to increase their power of resistance, best to meet the attacks of germs which spread Influenza. They know when a cold develops, when chills suddenly attack them, that Pepsinol will conserve their strength, increase their vitality, make the bod-ily organs function in perfect

order and invigorate the whole constitution. Pepsinol is the world-famous Strength-Renewer, Vitalizer and General Conditioner that builds up Body, Brain, Blood and Nerves. It takes you out of the valley of disease of robust, rosy health.

Genuine Pepsinol is made only by The Peplax Medicine Company, Memphis, Tenn., and in strict accordance with the standards of the U. S. Pharmacopoeia. Get Pepsinol from:
